Calendar Year 2007

## **ANEW Broadband, Inc.**

### **Statement of CPNI Procedures and Compliance**

ANEW Broadband, Inc. ("ANEW" or "Company") provides local and long distance telecommunications services to business and residential customers. The Company does not obtain, retain or use CPNI, including call detail records, to market any telecommunications services and has trained personnel not to use CPNI for marketing purposes. Should ANEW elect to use CPNI in the future, for marketing efforts, it will follow the applicable rules set forth in 47 CFR Subpart U, including, if necessary, the institution of operational procedures to ensure that notification is provided and customer approval is obtained before CPNI is used or disclosed.

The Company has implemented firewalls for protection of CPNI and call detail records in order to safeguard such data. Procedures against unauthorized access to CPNI are part of the Company's regular monitoring of operations. Company employees are prohibited from disclosing CPNI and call detail records and has procedures which provide for disciplinary action for such violations, up to and including termination of employment.

The Company does not disclose call record information over the telephone.

The Company provides its customers with on-line access to CPNI. On-line customers are required to select a username and password to gain access to their account information. In the event of a lost or forgotten password, the company does not prompt the customer for readily available biographical or account information, but instead emails information to email account of record, which allows the customer to reset the password. Further enhancements to the Company's on-line system will be made by June 8, 2008 as the Company qualifies as a small business entity under the Regulatory Flexibility Act or Small Business Act as it is a toll reseller with fewer than 1500 employees.

The Company does not have any retail locations and therefore does not disclose call detail records in-store.

Requests for call detail records by law enforcement agencies are only granted under subpoena.

(Page 2)

The Company has procedures to notify law enforcement in the event of a breach of customers' CPNI, including call detail records, to ensure that notification is provided in the time period set forth in the FCC's rules, or if applicable, when so authorized by law enforcement. In addition, the Company has a process to record all breaches discovered and will provide notification to the United States Secret Service, FBI and customers, to the extent possible.

The Company did not taken any actions against data brokers in the last year.

The Company did not receive any complaints about the unauthorized release of CPNI or the unauthorized disclosure of CPNI, including call detail records, in calendar year 2007.

The Company has not developed any information with respect to the processes pretexters are using to attempt to access CPNI or call detail records.
